SUMMARY

Full Stack Developer with 2+ years of experience building responsive, user-friendly web applications using React.js, Next.js, TypeScript, NestJS, PHP/Laravel, and PostgreSQL. Experienced in REST API integration, authentication systems, admin dashboards, and marketplace/booking workflows. Skilled in building reusable UI components and delivering production-ready application modules across multiple client projects.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Silver Sparrow Studios

Jan 2025 – Aug 2026

- Developed and maintained full-stack web application modules using React.js, Next.js, NestJS, PHP/Laravel, PostgreSQL, Prisma, and Tailwind CSS.
- Built and integrated backend APIs for authentication, admin dashboards, file uploads, user management, marketplace/order management, and booking-related features.
- Delivered production-level modules across 7+ client projects, including customer/provider dashboards, booking history, service management, payment-related screens, tracking features, and Backoffice workflows.
- Integrated frontend applications with backend APIs, implementing data fetching, filtering, pagination, form validation, error handling, and reusable UI components across multiple client projects.

Frontend Developer Intern — NextPak Agile, Rawalpindi

Jul 2024 – Dec 2024

6-month internship

NOTABLE PROJECTS

- Admin Panel Project:** Built a dynamic admin panel featuring sidebar navigation, data tables, forms, and video upload functionality, integrated with REST APIs using React.js, Next.js, and Tailwind CSS.
- Workforce Ops:** Enhanced a responsive service marketplace with user management, provider profiles, booking workflows, real-time data handling, authentication, and dashboard UI, built with React.js, Next.js, and Tailwind CSS.
- Khaas Event:** Contributed to an event management platform, developing modern, responsive frontend pages and service/event listing features, with API integration for a smooth user experience.
- Pharma Market:** Contributed to a multi-vendor pharmacy marketplace, supporting the customer ordering flow, admin/backoffice features, and product/service management through backend API integration.
- Portfolio Website:** Designed and developed a personal portfolio website to showcase projects, skills, and GitHub repositories.
